Barbara Murphy noted to the board that yesterday afternoon she noticed that her mailbox had been pulled out of the ground and that 2 political signs had been removed. It was suggested that she report the incident to the local police.

Lisa Wolford introduced herself as the land protection specialist with the Barrington Area Conservation Trust. She spoke in favor of the Township's participation in purchasing the parcel known as Barclay Woods. She added that she felt open space is important to the community, particularly for the wildlife corridor that is provided. There was further discussion on the merits of the property, its location, the benefit to the community, and the possible participating financial partners.

Tom Rowan addressed the board and spoke in favor of open space. He continued that Cuba Road is well maintained, but is concerned about the volume of cyclists using the road. There was a suggestion to post signage indicating that cyclists should travel in single file, instead of several cyclists across the roadway. Gooch said he would post such signage on Cuba Road.

Rowan continued, asking the board if there was a contract with Comcast for internet service. He is interested in another providing coming into the area to hopefully lower prices. It was confirmed to Rowan that there is no contract with Comcast, but there is no other provider currently serving the area.

Rowan concluded that he serves on the Barrington Countryside Fire Protection District board and that the board has a sprinkler ordinance in place for new residential construction. He added that it is difficult to enforce and is not receiving support from Lake County for enforcement of the ordinance. Krafthefer confirmed to Rowan that the Township has no purview for writing an ordinance to mandate or enforce the sprinkler ordinance. Gooch suggested the issue be discussed with the Lake County board members.
